

ADITYA SUNIL CHOUKSEY

AI / ML ENGINEER & BACKEND DEVELOPER

 Navi Mumbai, Maharashtra

 adityachouksey@example.com

 linkedin.com/in/aditya-chouksey

 github.com/aditya-chouksey

EDUCATION

ITM Skills University (School of Future Tech)

Bachelor of Technology (B.Tech) in Computer Science and Engineering (Semester II)

2025 — Present
Mumbai, India

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript, HTML/CSS

AI & Frameworks: Google Vertex AI, Generative AI, LLM Integration, TensorFlow, Scikit-Learn, Pandas, NumPy

Web Development: Next.js, React.js, Backend Automation, REST APIs (FastAPI/Flask)

Tools & DevOps: Git, GitHub, Vercel, Docker, Linux, Data Processing

PROJECTS

ZenPath: The 90-Day Social Detox Application

Build and Grow with AI 2.0 Hackathon

Jan 2026
Tech Stack: Next.js, Google Vertex AI, GenAI

- Engineered an AI-powered full-stack web application leveraging Google Vertex AI to build personalized, adaptive 90-day mental wellness and social media detox pathways.
- Architected responsive front-end flows using Next.js and integrated contextual user analytics to deliver dynamically updated progress reports.

Pitstop-Planner

Independent Project

May 2026
Tech Stack: React.js, Vercel Deployment, Git

- Designed and deployed a highly interactive, clean-UI strategy planner web tool tailored for modern high-performance frameworks.
- Optimized build configurations to eliminate deployment latency, ensuring reliable continuous integration via GitHub pipelines on Vercel.

Supercar Rental Management System

Academic Mini-Project (Modular Systems)

Feb 2026
Tech Stack: Modular C++, File I/O

- Developed a modular, object-oriented console application in C++ managing automated luxury vehicle selection, transactional calculations, and user bookings.
- Implemented strict pointer management and standard structured paradigms to manage records reliably.

Python Viral Clip Generator & Automation

Automation Scripting

Jan 2026
Tech Stack: Python, Scripting Tools

- Created automated content processing scripts to isolate high-engagement regions in long-form media for optimized micro-content delivery.

LEADERSHIP & ENGAGEMENT

SFT E-Sports Team Member ("Sleeper Cells")

Feb 2026

Competitive Gamer & Team Strategist

Vectors 2026 (AC Patil, Kharghar)

- Represented the School of Future Tech in regional inter-collegiate e-sports tournaments, practicing strategic communication and fast execution in high-pressure team settings.

Industry Immersion & Technical Summits

Dec 2025

Participant & Networker

Binance Blockchain Yatra & IIT Bombay Techfest

- Engaged with industry pioneers on decentralized ecosystems and artificial intelligence frameworks to gain early-stage real-world technological perspectives.
